ABOUT ME

A passionate learner with a growing interest and expertise in graphics design, coding, and machine learning. I'm dedicated to honing my skills in these areas, with the goal of merging creative design with logical development to craft innovative solutions. While I'm still building my expertise, I'm keen on exploring new tools and techniques, especially in the field of machine learning, where I'm just getting started. Whether it's designing user interfaces, coding interactive applications, or delving into machine learning, I'm eager to learn and contribute to projects that blend creativity with technology.

WORK EXPERIENCE

- DataKothon** 2024 - Present
Intern Researcher
 - joined this newly established research group as an intern researcher, contributing to foundational studies and expanding my research skills.
